VTT Partners with MOS Equipment to Market

The Mission Darkness Ballistic Line of Faraday Bags and Equipment

Working to Keep Sensitive Information Secure

PALMYRA, NEW YORK, March 1 -V Technical Textiles, the world leader of RF Shielding and EMI Enclosure fabrication, has partnered with MOS Equipment to market their Mission Darkness Ballistic Line of Faraday Bags and Equipment. This line includes Cell Phone, Tablet, Laptop, and Key Fob pouches to secure the enclosed devices from receiving or sending any data by any form of RF/EMI transmission. These bags are used in Military, Police, Forensic, and Private sectors for protection of sensitive, private, and forensic information.
