VTT to Attend the Automotive Testing Expo in Novi Michigan 10/22-10/24 2019

Visit us in Booth 14012

PALMYRA, NEW YORK, October 7 -V Technical Textiles, the world leader of RF Shielding and EMI Enclosure fabrication will travel to Novi, Michigan for the Automotive Testing Exposition. Be sure to visit VTT reps Steve Frierson and Steve Tomba and let them show you the testing products that we have developed to help you ease the stress and expense of the elaborate testing processes to help your company navigate the intricate maze of product development, interference mitigation, and pre-compliance testing with the least difficulty possible.

This show will also speak to the development of the autonomous automobile, one of the hottest topics in the automotive technology today and speak to the testing procedures that will become the new standard once cars are self driven! VTT is going to be there to both teach and learn what the automotive world is evolving into.

#autotestnovi

Located in Palmyra, New York, V Technical Textiles, Inc. is the leading manufacturer of RF Shielding and EMI enclosures and tents. Our benefit is our flexibility; with our metallized fabric enclosures being lightweight, portable, custom made, and providing unparalleled shielding performance.
