VTT MOVES EQUIPMENT AND OPERATIONS TO NEW LOCATION

Settling in to Our New Building

NEWARK, NEW YORK, December 3-V Technical Textiles, the world leader of RF Shielding and EMI Enclosure fabrication, is “making the move” this week to the new headquarters at 320 South Main Street Newark! We’ve spent a lot of time planning and preparing our new building for this move. All hands are on deck with equipment and supplies coming in from all previous locations, and getting in place to begin all operations at our new central location!

We’re excited to be making the move and, as anyone making a move knows, we’ll be very happy to have things out of boxes, up and functioning, and tweaking our layout and routine as we finalize the most efficient use of our new space!

Watch for further news as we consolidate our business in our new downtown Newark location!

Newark, New York, V Technical Textiles, Inc. is the leading manufacturer of RF Shielding and EMI enclosures and tents. Our benefit is our flexibility; with our metallized fabric enclosures being lightweight, portable, custom made, and providing unparalleled shielding performance.
