## **V Technical Textiles, Inc. Joins American Association of Textile Chemists and Colorists**

*Keeping in Touch and Networking with our Peers*

NEWARK, NEW YORK, July 16 -V Technical Textiles, the world leader of RF and EMI Shielded Portable Testing Enclosure fabrication, has become a Corporate Member of the American Association of Textile Chemists and Colorists. This group has been developing test methods and standards for textiles for nearly one hundred years! These test methods and standards help to ensure the quality of textiles that are produced in today's world, and their care recommendations help those textiles continue to look great and wear well for years. Our Membership in this Association keeps us in touch with networking opportunities with our peers as well as up to date on the latest technical requirements and needs in order to help us develop and produce the best conductive materials in the industry.

Located in Palmyra, New York, V Technical Textiles, Inc. is the leading manufacturer of RF Shielding and EMI enclosures and tents. Our benefit is our flexibility; with our metalized fabric enclosures being lightweight, portable, custom made, and providing unparalleled shielding performance.
