Technical Application Guide

V Technical Textiles, Inc. 8000 Series Curtains are the very best high performing RF shielding structures. The 8000 series is designed as a premium, highly durable, cost effective alternative to solid metal or screened walls. VTT's Curtains can be custom fabricated to any size or configuration the customer may need. VTT's 8000 Series curtains are clean room compatible to A300 (Class 1000). Used by NASA.

- **Applications:** RF Shielding curtain for medical, academic, EMC test labs, production, aerospace, automotive equipment, In-Situ testing, and for separating existing shielded chambers. Clean Room compatible.
- **Description:** Double wall construction of Shieldex® Nora Dell and Berlin fabric. The enclosure can be constructed with or without absorbers depending on the customer's requirements.
- **Shielding Effectiveness:** Average 60 dB from 30MHz to 18 GHz
- **Abrasion Resistance:** 1,000,000 cycles
- **Performance Loss:** 300 deployments is less than 10 dB
