VTT Employees Train and Earn Their CPR Certification

Employee Safety is a Priority, Be Prepared for Emergencies!

PALMYRA, NEW YORK, October 6– V Technical Textiles, Inc. Employees trained and earned their certification in CPR last week. Here at VTT, we believe it is important to be prepared to react to emergency situations. When an emergency happens, it is good to have had the training necessary to respond appropriately. It can mean the difference between life and death. We took time out of our busy schedule to ensure our employees are competent and ready to react if necessary. We are proud to have a group of friends ready to help if the need arises!
