Mentoring WEL (Wayne's Emerging Leaders)

A Pilot Program to Strengthen the Future of Wayne County

NEWARK, NEW YORK, November 17-V Technical Textiles, Inc. hosted a meeting on November 15th to discuss Wayne County's Emerging Leaders Program (Mentoring WEL). This program is seeking Wayne County's emerging leaders for enrollment in a pilot program of education and mentoring. This program is designed for emerging leaders in Wayne County who are already working in our businesses, agencies, and organizations.

Participants will meet monthly in the fall to learn about Wayne County, past and present. After meeting current leaders, they will develop a field of interest for further development. In December, participants will be paired with a mentor, and they will work together to explore the mentees' areas of interest. These emerging leaders will then be paired with mentors outside their organization to build professional networks, to help develop new modes of thinking.

By coming together and sharing different viewpoints, the goal is to develop a greater knowledge and skill set to become more effective leaders in their own business and in Wayne County.
